

Market Investigation Report

for Rural Drinking in China

- ◆ **Status Quo of Rural Drinking in China**
- ◆ **Policy Environment and Business Opportunity**
- ◆ **Rural Drinking Problems and Solutions**
- ◆ **Development Tendency of Treatment Technology**
- ◆ **Risk Factors and Strategy Analysis**

Table of contents

PREFACE	
PURPOSE OF INVESTIGATION.....	
SCOPE OF INVESTIGATION	
REGIONS OF INVESTIGATION	
DATA RESOURCES	
GENERAL DEFINITIONS	
MARKET DEFINITION	
CHAPTER I THE PRESENT CONDITIONS OF RURAL DRINKING IN CHINA	
1. HISTORY AND STATUS QUO OF RURAL DRINKING IN CHINA.....	
2. POLICY AND STANDARD OF RURAL DRINKING	
<i>(Including regulation department, representing the price, total quantity and per inhabitant consumption of drinking water in various rural regions)</i>	
3. ANALYSIS OF RURAL DRINKING SOURCE	
4. INSECURITIE FACTORS OF RURAL DRINKING SOURCE	
4.1 Water quality factor	
4.2 Engineering construction factor	
4.3 Policy factor	
4.4 Other factors	
5. HEAVILY LOADED REGIONS OF FLUORINE AND ARSENIC POLLUTION.....	
5.1 Representative problems	
5.2 Current solutions for these problems	
5.3 Economic influence factors	
5.4 Business opportunites to German enterprises	
CHAPTER II TECHNOLOGY ASSESSMENT OF RURAL DRINKING IN CHINA	
6. CURRENT ENGINEERING TECHNOLOGIES	
7. DIRECTION OF ENGINEERING TECHNOLOGY DEVELOPMENT	
8. CURRENT WATER TREATMENT TECHNOLOGIES	
9. DIRECTION OF WATER TREATMENT TECHNOLOGY DEVELOPMENT	
CHAPTER ECONOMIC MARKET ASSESSMENT OF RURAL DRINKING IN CHINA	

10. ENGINEERING CONSTRUCTION

11. TECHNOLOGIES AND PRODUCTS OF WATER TREATMENT

12. INFLUENCE FACTORS ANALYSIS OF MARKET

CHAPTER RISK FACTORS

11. POLICY RISK

12. MARKET RISK.....

13 TECHNOLOGY RISK

CHAPTER V ENGINEERING CASES OF RURAL DRINKING

TREATMENT IN CHINA
